Suggested Upgrades to be paid for by JEPP

Upgrades to church that can be used to improve the shelter activities (To be paid for by JEPP)

Emergency Power for church property

- Generator 10 KW is on hand

- Consider location for construction of generator shed

- Generator shelter construction location - near power panel, exhaust and noise considerations

- Rewire panel for manual cutoff switch and generator hookup (110 only)

Heat for Old Sanctuary – Fellowship Hall

- Evaluate condition of old sanctuary/fellowship hall oil heating system

- Construct pad and anchor oil tank to pad with EQ fuel shutoff

- Evaluate condition of new sanctuary heating system

Gym Propane System

- Reinforce propane heater in ceiling.

- Construct pad and anchor propane tank to pad with EQ fuel shutoff and wet leg

- Lease new propane tank for \$1 per year – requires church permission for new supplier

- Replumb propane supply from tank to heater

Field Kitchen, GENSET, Container Storage

- Need to discuss use of garages or construction of secure sheds

- Electrical needs
